

Man-Tra-Con Corporation is working with a local employer to fill the following position:

Job Title: King Machine of Illinois (AR-082824-01)

Location: Mt. Vernon, Illinois

Salary: \$17.00 to \$22.00 per hour to start, based on shift, position, and experience.

Job Description

King Machine of Illinois (KMIL) in Mt. Vernon is seeking candidates for multiple positions. First and second shift positions are available (6:00 a.m. to 2:30 p.m., or 2:30 p.m. to 11 p.m.) KMIL is willing to train the right candidate even without much experience. They are looking forward to working with you.

Available Positions:

• Preload

Candidate will train on 1st shift, a hybrid of 1st and second shift. Candidate should possess math skills, how to read and translate drawings, use of hand tools, and a keen eye for detail. Experience with measurement tools is a plus!

• Hand Finish

Candidate will train on 1st shift. Candidate should be able to use a small hand tool to test vents, knock out failed ones and replace with a functioning vent (very repetitive and tedious activity). Artistic ability — tattoo application, painting, wood/metal working — is a plus, with an ability to use small hand tools to complete intricate repair work. For instance, see a picture of something and be able to reproduce it with your hands. Position is sedentary, mostly sitting for the entire shift.

• Assembler

Candidate needs to be physically fit. The position involves bending, standing, stretching, and walking for the entire shift. Lifting of up to 50lbs with ease, plus ability to use small hand tools and an aptitude for performing a step-by-step process the exact same way repeatedly. Ability to determine the use of proper bolt sizes is a plus.

• Inspector

Candidate must have an eye for detail and an ability to communicate verbally and on paper. This position will require above average abilities for the application of quality guidelines, reading standards, communicating with production employees, and acute problem-solving skills. Previous quality management experience will take precedence. Some computer experience is a plus. This position is critical because it is the last stop on the road to the customer. This is a vital position for customer service and satisfaction.

How to Apply

If you are interested in any of the above positions, please email a resume to:
